Confidential

Taichung Arena is located near Rongde Road in Taichung city of Taiwan. The design idea originates from the city emblem of Taichung. By raising the terrain and introducing the setting channel, a large stadium and a small stadium are connected in series. In terms of function, besides the main stadiums and gymnasiums, there are office business, cultural facilities, social parking and other functions, which allows this arena to become one of the important venues in Taichung city.

The project comprehensively considers many elements, and organically combines youth, modern elegance, fashion and high-end with sports specialty to form a multi-functional and practical stadium. In addition, the landmark gentle slope green space is designed around the outside of the venue. This outdoor green space is not only used for mass activities, but also became the roof structure of some buildings. The organic and inorganic buildings are cleverly combined to form an interesting space experience.

台中市巨蛋体育馆位于台湾台中市荣德路附近。规划构思源自台中市市徽，通过抬高地形引入设定通道，串联起一大一小两个体育场。功能除了主要体育场馆以外，还有办公商业、文化设施和社会停车等功能，足以成为台中市重要活动场所之一。

项目综合考虑了诸多元素，将青春活力、现代典雅、时尚高端与体育专业有机结合，生成一个多元多功能、实际的体育场馆。此外，场馆外部周围设计了标志性的缓坡绿地，既是室外群众活动绿地，亦是部分建筑的屋顶结构。将有机生物和无机建筑巧妙结合，形成妙趣横生的空间体验。
