Office & Commercial / 办公和商业

**Size**  
175,500 SQM / 平米

**Awards**  
WAF Award Shortlist 2012  
WAF 设计大奖入围

The design of the project is an efficient and exciting renovation of the current wood storage house owned by a timber company to a multi-functional public space. Looking at the site plan, the design concept of tree rings is naturally employed into the project that evokes developer's company brand value and strength. Following this idea, the project has a clear and ordered spatial layout combined with an expressive curved facade of the main office tower and commercial podiums.

对本项目的设计可以说是一场成功而高效的建筑改建，将当前陈旧的木材储存仓库改建成多功能集于一体的公共空间。俯看平面，建筑物整体造型设计自然转化了木材年轮的意象，烘托出业主方作为木材企业的公司品牌价值与特色。将这一设计理念深入发展，结合主塔楼与商业裙楼上独特的外侧弧形立面想法，使整体有了一个清晰有序的回游式空间布局。
